OVERSIZING FRONIUS ECO 25.0-3-S – 27.0-3-S

Fronius International GmbH

Hereby confirms that the inverters

/ Fronius ECO 25.0-3-S up to Fronius ECO 27.0-3-S

can be oversized with max. 37.8 kW_{peak} without voiding the manufacturer's warranty provided that

/ String configuration adheres to the voltage and current window guidelines published in the operation manual

/ The open circuit voltage of the PV generator does not exceed the maximum input voltage of the inverter under any circumstances (temperature, irradiance)

/ The maximum DC array short circuit current of the PV generator must not exceed the maximum module array short circuit current ($I_{SC\ PV}$) of the inverter. $I_{SC\ PV}$ according to IEC 60364-7-712, NEC 2020, AS/NZS 5033:2021 is defined as: $I_{SC\ pv} = I_{SC\ max} \geq I_{SC\ (STC)} \times 1.25$
For more detailed information, please see the technical datasheets.
